ANDREA & LEO 2025 S/S COLLECTION

Andrea & Leo 2025 S/S collection draws inspiration from the enchanting beauty of a flower flourishing within a glass garden. This vision ignited during a moment of quiet wonder—imagining life blooming gracefully under the protective embrace of glass, where sunlight refracts to create a luminous spectacle of color and texture. The delicate balance of fragility and resilience mirrors the essence of each gown.

Encased in this magical world, every petal and stem glows with an ethereal charm, celebrating the artistry of nature's design. The collection captures this dream with a radiant palette and meticulously handcrafted embellishments, echoing the brilliance of flowers illuminated in their crystalline sanctuary. It's a story of finding magic in growth, beauty in stillness, and a reflection of grace blooming against all odds.
